Languages

- English: Basic level

I'm Ngô Hoàng Anh, a second-year Information Technology student at the University of Transport and Communications (UTH) in Ho Chi Minh City. I have a strong passion for web development and am constantly learning to become a professional developer. I'm especially interested in frontend development and building modern, user-friendly websites

Work Experience

- **Web Developer December 2024 – January 2025 Building savings management software using javascript, html, css**

Education

- **Participated in the provincial excellent student competition for the 2023 school year**

- **Currently a 2nd year student at the University of Transport**
